## HIP SERIES

### P1.56 INDOOR LED DISPLAY

Perfect for any corporate environment where space is a premium, the HIP series 16:9 LED wall delivers seamless panel integration and ultra-high brightness. Give your staff and clients the most memorable visual LED experience.

#### Highlights

##### High refresh rate

With uniform color scale and brightness, dynamic performance of LED display could restore the true scenes without any ripples.

##### Brightness nits

With an average 500 nits and 1,000 nits maximum brightness, the display panels can deliver amazingly vivid imagery anywhere during daytime and nighttime conditions.

##### Low brightness & High gray level

LED display could reveal more details, including layers and colors, than traditional displays do.

##### 160° High viewing angle

The extra wide 160° viewing angle is a perfect fit for large groups of people that will view the displays from diverse angles while passing by.

##### High color calibration

LED display correction technology could uniformly lighten several hundred thousand LED lights, presenting a uniform display effect with the same brightness and color scale.

##### Self-Heat Dissipation Management

Self-heat dissipation design, energy saving and noise reduction improve the service life.
