DIAMOND SYSTEMS

ZiggyBox™ Mini NVIDIA® Jetson™ Computer System

High Performance, Compact Size

The ZiggyBox provides a compact and highly cost-effective solution for AI at the edge and machine learning applications for industrial and lab applications. It is based around the NVIDIA® Jetson™ TX2/TX2i advanced computing module with NVIDIA Pascal™-family GPU technology. The Jetson module is housed in a rugged miniature enclosure measuring only 2.5 x 2.6 x 3.8" (63 x 67 x 96mm).

ZiggyBox offers easy access to the most popular Jetson I/O features, including Ethernet, USB 3.0 / 2.0 / OTG ports, HDMI display, and 2 RS-232 ports. The built-in carrier board adds a valuable data acquisition circuit with real-world analog and digital I/O features and software support.

An integrated heat sink provides reliable operation at up to 80oC without forced air. With its integrated Linux OS and table-top / DIN rail mounting options, ZiggyBox is ready to be deployed wherever the combination of high-performance computing and ultra-compact size are required.
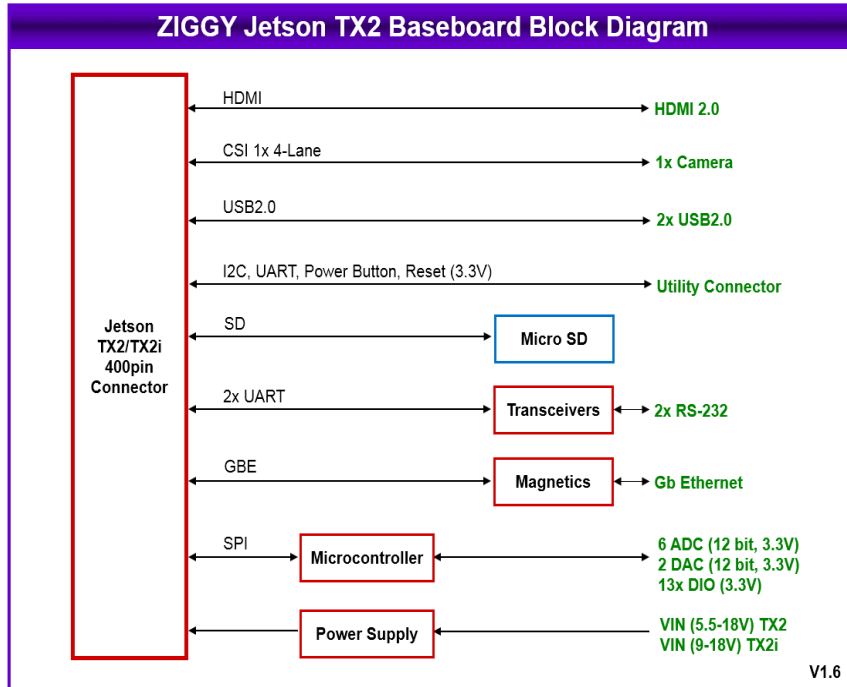

Features

- NVidia® Jetson™ TX2 / TX2i processor
- 8GB RAM, 32GB Flash
- 1x 10/100/1000 Ethernet (RJ-45)
- 1x USB 3.0 Type A + 1x USB 2.0 Type A
- 1x USB 2.0 micro with OTG support
- 1x HDMI
- 2x RS-232
- 6x analog inputs, 12-bit resolution, 0-3.3V input range, up to 1Msps throughput
- 2x analog outputs, 12-bit resolution, 0-3.3V output range
- 12x digital I/O, 3.3V logic levels
- Wifi and Bluetooth connectivity (TX2 model only)
- Built-in Linux OS
- Input voltage:
    9-15VDC (TX2 model)
    9V-19VDC (TX2i model)
- Dimensions: 63 x 67 x 96mm / 2.5 x 2.6 x 3.7"
- Operating temperature: -40°C to 85°C

Data Acquisition

ZiggyBox contains a full-fledged analog and digital I/O circuit that provides control and monitoring of real-world events such as sensors, temperature controls, keypads & switches, and industrial processes. All features are supported by Diamond's built-in data acquisition driver software, featuring a programming library with application demos plus an interactive GUI-based control program that offers real-time access and control.

Assured Systems

Assured Systems is a leading technology company with over 1,500 regular clients in 80 countries, deploying over 85,000 systems to a diverse customer base in 12 years of business. We offer high-quality and innovative rugged computing, display, networking and data collection solutions to the embedded, industrial, and digital-out-of-home market sectors.
