12.1" Intel® Celeron® N2930 G-WIN GS-Series Full IP65 PCAP Panel PC

## KEY FEATURES

- 12.1" 1024 x 768 Resolution with Projected Capacitive Multi-Touch (P-CAP)
- Intel® Celeron® Bay Trail-M N2930 1.83 GHz
- Fanless cooling system and ultra-low power consumption
- Edge-to-edge design
- Full IP65 design with Special M12 Waterproof connectors
- 1 x LAN, 1 x RS232, 1 x USB 2.0

## INTRODUCTION

Winmate G-WIN GS Series Panel PC Series is engineered for demanding industrial applications, offering sizes from 7" to 15" with a fanless cooling system and ultra-low power consumption. These robust Panel PCs feature edge-to-edge design, PCAP multi-touch screens, and full IP65 protection with waterproof M12 connectors, ensuring resistance to water, dust, and harsh conditions. With versatile I/O options, rugged durability, and sleek functionality, they are ideal for manufacturing, outdoor kiosks, and other challenging environments.

## OVERVIEW

### Easy-to-Clean Flat Surface

Winmate's Flat aluminum display goes beyond that of the standard industrial panel computers with its elegant, edge-to-edge design. The Panel PC is easy to clean, plus the screen is resistant to water and liquid droplets.

### Dust and Water Protection

The dust and waterproof Panel PC complies with IP65 standards. Plus, the M12 connectors are waterproof for varying industrial environments.

**Fanless Cooling System**

The fanless design eliminates dust circulation for improved product longevity – especially in heavy-duty applications where dusty conditions are prevalent.

**Comprehensive I/O Ports**

Combining ruggedness with a range of I/O ports makes this device highly usable for heavy-duty industrial applications. Plus, the waterproof connectors come with screw-on caps for added protection.

**Anti-Shock and Vibration**

The G-Win series is as tough as it gets. The Panel PCs are compliant with MIL-STD-810G, and the aluminum die-casting is rock solid. Plus, optical bonding technology with anti-moisture treatment and resistive coating ensure the screen and housing are both rugged to the max.
