5-Port Industrial PoE+ Unmanaged Ethernet Switch, with 4\*10/100Tx (PSE:30W/Port) + 1\*100Fx, 12~36VDC Power Input (Built-in Voltage Booster)

#### INTRODUCTION

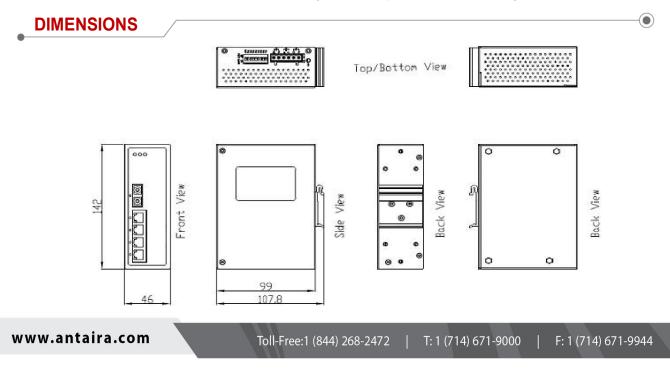

**Antaira Technologies' LNP-0501-24 series** is an industrial PoE+ unmanaged Ethernet switch featuring 4\*10/100Tx Fast Ethernet RJ45 ports and 1\*100Fx fiber port with SC or ST type connectors and an option for multi-mode (2Km) or single-mode (30Km). Each Ethernet port supports an IEEE 802.3at high power PoE+ output up to 30W per port, making it ideal for applications that demand a PoE power source. This product series provides a low voltage input range of 12~36VDC with an internal voltage booster to support a 48VDC PoE power output.

**Features** 

30W/Port

2Km. Single-Mode 30Km)

The LNP-0501-24 series is IP30 rated and DIN-rail mountable. There are also two wide operating temperature models for either a standard temperature range (STD: -10°C to 70°C) or an extended temperature range (EOT: -40°C to 75°C). It also provides Ethernet connectivity with PoE functions and a fiber connection for mobile surveillance applications utilizing a low voltage power source as a battery, and for any other industrial automation field sites needing a 24VDC power source, such as, security surveillance, traffic monitoring systems, oil/gas and mining, facility management for power/utility, water wastewater treatment plants, and lastly, automated production lines in factory automation.
