

SVXE4F Series

*Outdoor Display OD Series
Slim & Light Design*

OD Series composed of single display with a light and slim design
SVOD65OH25 SVOD55OH30 SVOD49OH30

SUREVIEW

Easy integration for partner's customized design

Because the OD Series is significantly thinner and lighter than previous designs, it is mount-ready and can be more easily customized for a variety of applications.

Outdoor Display OD Series

SVOD65OH25

SVOD55OH30

SVOD490H30

Bright & Brilliant

The OD series possess powerful brightness of 3000 nits, providing clear and vivid picture quality even under direct sunlight.

Wide Viewing Angle

IPS technology provides better control of the liquid crystals, which in turn allows the screen to be viewed at virtually any angle.

SUREVIEW

Energy-Efficient Performance

Through advanced thermal control functionality and a filter-free design, the OD Series displays operate at reduced energy consumption. An integrated heat exchanger modifies signage resources depending on the environment, and ultimately cuts costs for operators.

Visible with Polarized Sunglasses

Quarter Wave Plate technology in this display enables clear visibility even when the viewer is wearing polarized sunglasses.

SUREVIEW

Operate Reliably in Virtually any Environment

Each OD Series display undergoes rigorous IP56 ingress defense testing to ensure resistance to dust, heat, moisture and other environmental variables that can impede operations. This includes an integrated self-cooling system that keeps the OD Series displays running in temperatures ranging from -30°C (-22°F) to 50°C (122°F). In turn, operators can feel confident in the displays' ability to perform 24/7, and without requiring expensive external cooling systems or security measures.

Web Monitoring

The embedded web monitoring allows a variety of parameters to be diagnosed in real time using temperature, pixel, door, ambient light and gyro sensors. It can be easily controlled at all times.

Assured Systems

Assured Systems is a leading technology company with over 1,500 regular clients in 80 countries, deploying over 85,000 systems to a diverse customer base in 12 years of business. We offer high-quality and innovative rugged computing, display, networking and data collection solutions to the embedded, industrial, and digital-out-of-home market sectors.
