

MSA460T & MSA460T-I

Featuring the Serial ATA III 6Gb/s interface and built around a powerful controller, Transcend's MSA460T non-DRAM mSATA SSD features the latest 112-layer 3D NAND technology for high storage efficiency. In addition, the 30μ" gold finger PCB, Corner Bond technology, and anti-sulfur resistors guarantee its reliability in harsh conditions. The MSA460T is also 100% chamber tested in-house for extended operating temperatures of -20°C~75°C. The compact mSATA form factor is just one-eighth the size of a standard 2.5" SSD, making it perfect for use in space-constricted portable devices such as Ultrabooks, tablet PCs, and slim servers.

Transcend also offers the MSA460T-I with wide temperature (-40°C ~ 85°C) capabilities to ensure sustained functionality, enhanced endurance and optimal reliability in mission-critical applications.

Hardware Features

- Compliant with JEDEC MO-300A
- · Anti-sulfur technology implemented to prevent sulfurization in the environment
- 30µ" PCB gold finger
- · Key components fortified by default with Corner Bond technology
- Endurance: 3K P/E cycles (Program/Erase cycles) guaranteed

Firmware Features

- Supports S.M.A.R.T. function to conduct health monitoring, analysis, and reporting for storage devices
- · Advanced Global Wear-Leveling and Block management for reliability
- Built-in LDPC ECC (Error Correction Code) functionality
- · Dynamic thermal throttling

Mechanical Dimensions

Product specifications are subject to change without notice. Pictures shown may differ from actual products. Total accessible capacity varies depending on operating environment. Due to the complexity and variety of industrial applications, Transcend cannot guarantee 100% compatibility with all platforms and under all scenarios. For special applications and environments, it is strongly suggested that you contact Transcend beforehand for clarification.

Assured Systems

Assured Systems is a leading technology company with over 1,500 regular clients in 80 countries, deploying over 85,000 systems to a diverse customer base in 12 years of business. We offer high-quality and innovative rugged computing, display, networking and data collection solutions to the embedded, industrial, and digital-out-of-home market sectors.
