

Internal Camera with 5m Cable, 120° Wide Angle Lens and Up To 5m IR Night Vision

ASL022-S

Internal Camera with 5m plug and play cable for direct connection to ASL1S and ASL400GPS

The ASL022-S is a high resolution unobtrusive internal vehicle CCTV camera with 5m IR night vision and a 120° wide angle lens. The camera is designed to be used in conjunction with the ASL1S and ASL400GPS and can be connected and powered using a single 5 metre cable. The unit has a small, compact design and is supplied with a variety of brackets meaning that the camera can be placed almost anywhere inside your vehicle. The camera is designed to be used as a Driver, Passenger or Cargo facing camera, keeping an eye on what is most precious to you. The camera also features Wide Dynamic Range function for clear image on a bright day and up to 5 metres infrared night vision for clear images in complete darkness.
