The Getac A790 is the latest ultra-rugged model of the Getac Rugged Notebook Family. This extremely rugged notebook not only meets MIL-STD-810G certified and IP65 compliance ratings to survive the harshest environments, but also satisfies critical EMI requirements.

A high performance 14.1" TFT sunlight readable LCD provides consistent and efficient operation along with a shock-protected HDD, and a wide range of ambient temperature features.

The A790 also possesses multiple bays for extensive versatility and expandability. Users have the luxury of employing the bays with additional removable HDDs for storage capacity expansion, auxiliary batteries for extended use, or other additional modules such as Bluetooth, GPS, and more.

Complementing this multifunctional rugged unit are the state-of-the-art authentication capabilities including a TPM chip, a fingerprint scanner, and a smart card reader, to safely protect confidential information.

Industry Applications

Military

A790 - MIL-STD-810G certified and IP 65 compliance - is the best rugged solution supporting air force, army, and navy combat operations. It features multiple bays that enable extensive versatility and expandability required by the military market. A790 facilitates asset management to track numerous military equipments or components and relevant information is reported to commands by wireless transmission to ensure timely maintenance, repair, or replacement.

Manufacturing

The shock-protected removable HDD, fan-less design and sealed I/O ports are A790's unique features to ensure effectiveness and stability under extreme environments. Its expansion unit connects equipment and facilities in order to conveniently control and monitor their operation. The ultra shock mount and vehicle dock customized for A790 make this rugged unit highly available and effective under various mission critical environments.

Public Safety

Border patrollers and customs officers responsible for crackdown on illegal immigrants or smuggling are able to use the extremely rugged A790 that enables effective surveillance. Confidential information is protected by A790's advanced TPM chip, fingerprint scanner, smart card reader, and data analysis and databank establishment are facilitated by wireless transmission.

- i Each A790 can only install one X-Bay optional item.
- ii Battery life testing conducted under BatteryMark 4.0.1. Battery performance will vary upon software applications, wireless settings, power management settings, LCD brightness, customized modules and environmental conditions. The battery has a limited number of charge cycles and may eventually need to be replaced by a Getac service provider. Battery life and charge cycles vary by use and settings.
- iii Weight varies from configurations and optional accessories.
- iv Tested by a national independent third party test lab following MIL-STD-810G.
